**Real Analysis: Modern Techniques and Their Applications** Gerald B. Folland

An in-depth look at real analysis and its applications-now expanded and revised.

This new edition of the widely used analysis book continues to cover real analysis in greater detail and at a more advanced level than most books on the subject. Encompassing several subjects that underlie much of modern analysis, the book focuses on measure and integration theory, point set topology, and the basics of functional analysis. It illustrates the use of the general theories and introduces readers to other branches of analysis such as Fourier analysis, distribution theory, and probability theory.

This edition is bolstered in content as well as in scope-extending its usefulness to students outside of pure analysis as well as those interested in dynamical systems. The numerous exercises, extensive bibliography, and review chapter on sets and metric spaces make *Real Analysis: Modern Techniques and Their Applications, Second Edition* invaluable for students in graduate-level analysis courses. New features include:

- \* Revised material on the n-dimensional Lebesgue integral.
- \* An improved proof of Tychonoff's theorem.
- \* Expanded material on Fourier analysis.
- \* A newly written chapter devoted to distributions and differential equations.
- \* Updated material on Hausdorff dimension and fractal dimension.

### **From reader reviews:**

#### **Catherine Browning:**

Have you spare time to get a day? What do you do when you have much more or little spare time? Yes, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a wander, shopping, or went to the particular Mall. How about open or even read a book called Real Analysis: Modern Techniques and Their Applications? Maybe it is to be best activity for you. You know beside you can spend your time with the favorite's book, you can better than before. Do you agree with their opinion or you have additional opinion?

#### **Kimberly Hopkins:**

The book Real Analysis: Modern Techniques and Their Applications can give more knowledge and also the precise product information about everything you want. So just why must we leave the best thing like a book Real Analysis: Modern Techniques and Their Applications? Some of you have a different opinion about reserve. But one aim that will book can give many data for us. It is absolutely suitable. Right now, try to closer along with your book. Knowledge or details that you take for that, you can give for each other; it is possible to share all of these. Book Real Analysis: Modern Techniques and Their Applications has simple shape however you know: it has great and massive function for you. You can appear the enormous world by open and read a book. So it is very wonderful.

#### **Jeff Weaver:**

Your reading 6th sense will not betray you actually, why because this Real Analysis: Modern Techniques and Their Applications reserve written by well-known writer who really knows well how to make book that could be understand by anyone who have read the book. Written within good manner for you, still dripping wet every ideas and composing skill only for eliminate your personal hunger then you still hesitation Real Analysis: Modern Techniques and Their Applications as good book not just by the cover but also with the content. This is one reserve that can break don't determine book by its protect, so do you still needing one more sixth sense to pick this kind of!? Oh come on your studying sixth sense already said so why you have to listening to a different sixth sense.

#### **Rex Vogler:**

In this particular era which is the greater man or who has ability in doing something more are more important than other. Do you want to become one among it? It is just simple solution to have that. What you must do is just spending your time not very much but quite enough to experience a look at some books. One of several books in the top list in your reading list will be Real Analysis: Modern Techniques and Their Applications. This book which can be qualified as The Hungry Slopes can get you closer in getting precious person. By looking upwards and review this guide you can get many advantages.
