The War Of The Worlds: Fresh Perspectives On The H. G. Wells Classic (Smart Pop series) H. G. Wells

H.G. Wells has been called the father of science fiction, and with genre-defining classics like *The War of the Worlds* and *The Time Machine*, it's obvious why.

The War of the Worlds is as vivid and powerful today as the day it was written. In this collection, which also includes the full text of *The War of the Worlds*, fourteen of science fiction's greatest talents come together to discuss, with insight and humor, one of science fiction's most important works.

Essays include:

- "H. G. Wells' Enduring Mythos of Mars," in which Stephen Baxter provides the history of man's investigators of Mars and explains why Wells was right after all
- "Just Who Were Those Martians, Anyway?" in which Lawrence Watt-Evans explains how ridiculously incompetent the Martians were as interplanetary invaders, and why
- "In Working's Image," in which Mercedes Lackey takes us to a different alien world: Wells' hometown of Working during the late 19th century
- "The Tiniest Assassins," in which Mike Resnick suggests that Wells gets one tiny thing wrong
- The Hugo-winning "The Soul Selects Her Own Society" (the only reprint in this anthology), in which Connie Willis describes the unfortunate encounter between Emily Dickinson and Wells' Martians
