Anthropology and Development: Challenges for the Twenty-First Century (Anthropology, Culture & Society)

Katy Gardner, David Lewis

Anthropology and Development: Challenges for the Twenty-First Century (Anthropology, Culture & Society) Katy Gardner, David Lewis

Western aid is in decline. Non-traditional development actors from the developing countries and elsewhere are in the ascendant. A new set of global economic and political processes are shaping the twenty-first century. Anthropology and Development is a completely rewritten new edition of the best-selling and critically acclaimed Anthropology, Development and the Post-Modern Challenge (1996). It will serve as both an innovative reformulation of the field, and as a textbook for many undergraduate and graduate courses at leading universities in Europe and North America. The authors Katy Gardner and David Lewis engage with nearly two decades of continuity and change in the development industry. In particular, they argue that while the world of international development has expanded since the 1990s, it has become more rigidly technocratic. Anthropology and Development therefore insists on a focus upon the core anthropological issues surrounding poverty and inequality, and thus redefines what are perceived as problems in the field.
