Millionaire Teacher: The Nine Rules of Wealth You Should Have Learned in School Andrew Hallam
The incredible story of how a schoolteacher built a million-dollar portfolio, and how you can too Most people wouldn't expect a schoolteacher to amass a million-dollar investment account. But Andrew Hallam did so, long before the typical retirement age. And now, with *Millionaire Teacher*, he wants to show you how to follow in his footsteps. With lively humor and the simple clarity you'd expect from a gifted educator, Hallam demonstrates how average people can build wealth in the stock market by shunning the investment products peddled by most financial advisors and avoiding the get-rich-quicker products concocted by an ever widening, self-serving industry.

Using low cost index funds, coupled with a philosophy in line with the one that made Warren Buffett a multi-billionaire, Hallam guides readers to understand how the stock and bond markets really work, arming you with a psychological advantage when markets fall.

- Shows why young investors should hope for stock market crashes if they want to get rich
- Explains how you can spend just 60 minutes a year on your investments, never open a financial paper, avoid investment news, and still leave most professional investors in the dust
- Promotes a unique new investment methodology that combines low cost index funds and a Warren Buffett-esque investment philosophy

Millionaire Teacher explains how anyone can learn the ABCs of personal finance and strengthen their financial position.
