Historical Dictionary of Indonesia (Historical Dictionaries of Asia, Oceania, and the Middle East)

Audrey Kahin

A wide-flung archipelago lying between the Pacific and Indian Oceans, Indonesia is the world's most populous Islamic country. For over two thousand years it was a crossroads on the major trading route between China and India, but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century. Declaring its independence from the Dutch in 1945, the Republic of Indonesia was ruled by only two regimes over the next half century. Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption. However, since 2004 Indonesia has successfully carried out four direct elections for president, together with an equal number of elections for legislative bodies at all levels of government, and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure.

This third edition of *Historical Dictionary of Indonesia* contains a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Indonesia.
