**Ludwig's Applied Process Design for Chemical and Petrochemical Plants, Fourth Edition: Volume 2: Distillation, packed towers, petroleum fractionation, gas processing and dehydration** A. Kayode Coker PhD

The Fourth Edition of Applied Process Design for Chemical and Petrochemical Plants Volume 2 builds upon the late Ernest E. Ludwig's classic chemical engineering process design manual. Volume Two focuses on distillation and packed towers, and presents the methods and fundamentals of plant design along with supplemental mechanical and related data, nomographs, data charts and heuristics. The Fourth Edition is significantly expanded and updated, with new topics that ensure readers can analyze problems and find practical design methods and solutions to accomplish their process design objectives.

- A true application-driven book, providing clarity and easy access to essential process plant data and design information
- Covers a complete range of basic day-to-day petrochemical operation topics
- Extensively revised with new material on distillation process performance; complex-mixture fractionating, gas processing, dehydration, hydrocarbon absorption and stripping; enhanced distillation types

**From reader reviews:**

**Henrietta Roderick:**

Have you spare time to get a day? What do you do when you have much more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a stroll, shopping, or went to often the Mall. How about open or even read a book allowed Ludwig's Applied Process Design for Chemical and Petrochemical Plants, Fourth Edition: Volume 2: Distillation, packed towers, petroleum fractionation, gas processing and dehydration? Maybe it is being best activity for you. You realize beside you can spend your time with your favorite's book, you can wiser than before. Do you agree with it is opinion or you have some other opinion?

**James Barclay:**

In this 21st centuries, people become competitive in each and every way. By being competitive currently, people have do something to make all of them survives, being in the middle of the actual crowded place and notice by means of surrounding. One thing that at times many people have underestimated the idea for a while is reading. Yeah, by reading a book your ability to survive raise then having chance to stay than other is high. For you who want to start reading a book, we give you that Ludwig's Applied Process Design for Chemical and Petrochemical Plants, Fourth Edition: Volume 2: Distillation, packed towers, petroleum fractionation, gas processing and dehydration book as beginner and daily reading reserve. Why, because this book is greater than just a book.

**Willie Navarro:**

The book untitled Ludwig's Applied Process Design for Chemical and Petrochemical Plants, Fourth Edition: Volume 2: Distillation, packed towers, petroleum fractionation, gas processing and dehydration contain a lot of information on this. The writer explains the woman idea with easy technique. The language is very simple to implement all the people, so do not necessarily worry, you can easy to read that. The book was compiled by famous author. The author will take you in the new period of time of literary works. You can actually read this book because you can read on your smart phone, or gadget, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can available their official website as well as order it. Have a nice examine.

**Kevin Hardy:**

Is it a person who having spare time in that case spend it whole day through watching television programs or just laying on the bed? Do you need something totally new? This Ludwig's Applied Process Design for Chemical and Petrochemical Plants, Fourth Edition: Volume 2: Distillation, packed towers, petroleum fractionation, gas processing and dehydration can be the solution, oh how comes? A book you know. You are consequently out of date, spending your spare time by reading in this brand new era is common not a

nerd activity. So what these textbooks have than the others?
