Wall Street Stock Selector: A Review of the Stock Market with Rules and Methods for Selecting Stocks W. D. Gann

The aim and object of every trader who enters Wall Street is to make money, yet it is a well-known fact that a large percentage of traders lose money. There are many reasons for their losses. One of the most important is that they do not know how to select the right stocks to buy and sell at the right time. I expect to give rules provable and practical which will help traders to study and learn how to select the proper stocks to buy and sell with a minimum of risk.

The main object of this book is to bring TRUTH OF THE STOCK TAPE up to date and give the investor and trader the benefit of seven more years of my experience, which has been valuable to me, and if the reader will profit by my experience, it will prove valuable to him.

In this life we must have some definite aim or hope to attain happiness. Money will not bring all of it. Neither can we always help others with money. The best way that I know of to help others is to show them how to help themselves. Therefore, knowledge and understanding properly imparted to others is the greatest good that we can do for them and at the same time do good for ourselves. Thousands of people have written me that I have helped them through TRUTH OF THE STOCK TAPE. I believe the WALL STREET STOCK SELECTOR will give you more knowledge, will bring you more happiness through money gained, than any other book. If it does, I will be well repaid for my labor.
