## **Outdoor Photographer Landscape and Nature Photography with Photoshop CS2** Rob Sheppard

It's time to see Photoshop as a tool of your craft. This book is not about "fixing it in Photoshop." It's about how you, the serious nature photographer, can use technology to enhance your art. Rob Sheppard sees Photoshop not as an eraser for mistakes and the effects of careless shooting, but as an artist's tool, one that assists you in the craft of producing art from your digital camera. He shows you how to use Photoshop CS2 to extend tonal range, remove color haze, correct lens distortions, create multi-frame panoramas, and so much more--all to reveal the work of art you knew was there all along. Learn to apply Photoshop techniques to the unique requirements of landscape and nature photography. Be aware of correct exposure when shooting for Photoshop. Use layers to enhance images and correct tonality and color for optimum images. Discover a better way of dodging and burning. Understand midtones and manage color correction with an eye to the finished product. Process images twice in Camera Raw for better shadow and highlight detail. Explore how Photoshop CS2 can support proven techniques used by the masters of traditional nature photography. Photoshop offers great power for controlling color so you can get natural, realistic colors that best express what you see in nature. Unsharp Mask is unmasked so that you can get the most from this powerful sharpening tool. Utilize the best methods of black-and-white conversion.

#### **Betsy Haley:**

As a university student exactly feel bored to help reading. If their teacher inquired them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's internal or real their hobby. They just do what the trainer want, like asked to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Outdoor Photographer Landscape and Nature Photography with Photoshop CS2 can make you feel more interested to read.
