Zing! Cupid's arrow skewers a primitive part of the brain. Obediently, we fall in love amid showers of passionate fireworks, bond for a time ... and then often get fed up with each other and grow irritable or numb. Perhaps we try to remodel our mate, seek solace online, or pursue a new love interest. Ancient sages recognized this biological snare and hinted at a way to dodge it: use lovemaking to balance one another and harmony arises naturally.

With an entertaining blend of personal experiences, the latest neuroscience, and forgotten insights from around the globe, *Cupid's Poisoned Arrow* confronts current assumptions about sex and love and offers a refreshing, practical approach to sexuality.
