Before the snake,

the apple,

and the Ten Commandments,

God created a garden...

“Spiritual environmentalism” did not start out as an oxymoron—it was an invitation.

Yet today, many believe God’s first job description for humankind has been replaced by other “worthier pursuits”. Why has this simple instruction become so controversial? How does one sort through all the mixed messages? Is changing our lives to save the world really our responsibility—or even possible?

Gardening Eden invites you to consider a new, spiritual perspective to practical environmentalism. The question is not whether our souls find expression and inspiration in our incredible planet, but *how* best to preserve that fundamental connection.

Green living is no longer a fad—simple lifestyle solutions are now available to everyone. Discover creation care as an act of worship and a call to deeper harmony with our Creator, our fellow gardeners, and our living Earth. *Gardening Eden* is the primer in how this shift will transform not only our world, but your very soul.
