## Vehicular ad hoc Networks: Standards, Solutions, and Research

This book presents *vehicular ad-hoc networks* (VANETs) from their onset, gradually going into technical details, providing a clear understanding of both theoretical foundations and more practical investigation. The editors gathered top-ranking authors to provide comprehensiveness and timely content; the invited authors were carefully selected from a list of who's who in the respective field of interest: there are as many from Academia as from Standardization and Industry sectors from around the world. The covered topics are organized around five Parts starting from an historical overview of vehicular communications and standardization/harmonization activities (Part I), then progressing to the theoretical foundations of VANETs and a description of the day-one standard-compliant solutions (Part II), hence going into details of vehicular networking and security (Part III) and to the tools to study VANETs, from mobility and channel models, to network simulators and field trial methodologies (Part IV), and finally looking into the future of VANETs by investigating alternative, complementary communication technologies, innovative networking paradigms and visionary applications (Part V). The way the content is organized, with a differentiated level of technical details, makes the book a valuable reference for a large pool of target readers ranging from undergraduate, graduate and PhD students, to wireless scientists and engineers, to service providers and stakeholders in the automotive, ITS, ICT sectors.

### **From reader reviews:**

#### **Katherine Herron:**

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to understand everything in the world. Each guide has different aim or even goal; it means that book has different type. Some people feel enjoy to spend their the perfect time to read a book. They are reading whatever they get because their hobby is actually reading a book. How about the person who don't like examining a book? Sometime, man or woman feel need book whenever they found difficult problem or perhaps exercise. Well, probably you will need this Vehicular ad hoc Networks: Standards, Solutions, and Research.

#### **Andrew Spivey:**

Within other case, little folks like to read book Vehicular ad hoc Networks: Standards, Solutions, and Research. You can choose the best book if you'd prefer reading a book. As long as we know about how is important a new book Vehicular ad hoc Networks: Standards, Solutions, and Research. You can add know-how and of course you can around the world by just a book. Absolutely right, due to the fact from book you can realize everything! From your country till foreign or abroad you can be known. About simple point until wonderful thing you could know that. In this era, we can easily open a book or even searching by internet unit. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's read.

#### **Noah Gardner:**

This Vehicular ad hoc Networks: Standards, Solutions, and Research usually are reliable for you who want to be a successful person, why. The main reason of this Vehicular ad hoc Networks: Standards, Solutions, and Research can be among the great books you must have will be giving you more than just simple studying food but feed an individual with information that might be will shock your prior knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions at e-book and printed types. Beside that this Vehicular ad hoc Networks: Standards, Solutions, and Research giving you an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that could it useful in your day pastime. So , let's have it and enjoy reading.

#### **Julie Moore:**

Reading can called thoughts hangout, why? Because when you are reading a book mainly book entitled Vehicular ad hoc Networks: Standards, Solutions, and Research your mind will drift away trough every dimension, wandering in every single aspect that maybe unknown for but surely can be your mind friends. Imaging each word written in a book then become one application form conclusion and explanation which maybe you never get before. The Vehicular ad hoc Networks: Standards, Solutions, and Research giving you another experience more than blown away your brain but also giving you useful data for your better life on this era. So now let us demonstrate the relaxing pattern the following is your body and mind will likely be pleased when you are finished studying it, like winning a sport. Do you want to try this extraordinary

spending spare time activity?
