Jacob Lund Fisker

Early Retirement Extreme: A philosophical and practical guide to financial independence Jacob Lund Fisker

A carefully-crafted combination of smart financial choices, simple living, and increased self-sufficiency brought me financial independence at 30 and allowed me to retire from my profession at 33. Early Retirement Extreme shows how I did it and how anyone can formulate their own plan for financial independence. The book provides the principles and framework for a systems theoretical strategy for attaining that independence in 5-10 years. It teaches how a shift in focus from consuming to producing can help people out of the consumer trap, and offers a path to achieving the freedom necessary to pursue interests other than working for a living. The principles in Early Retirement Extreme show how to break the financial chains that hold people back from doing what they truly want to do. The framework and principles revealed in the book has been used by many people over the last few years to accomplish a variety of goals. It provides people a means to achieve almost any goal, whether it's debt-free living, extended travel, a sabbatical, a career change, time off to raise a child, a traditional retirement, or simply a desire for a more resilient and self-sufficient lifestyle. The book was initially written for people in their 20s and 30s, but its ideas aren't limited to early retirees. Middle-aged people in the grips of consumerism can use the principles to take back control of their lives. People closer to retirement age who don't feel adequately prepared can use it to set themselves up for a comfortable retirement in a relatively short period of time. Anyone worried about their financial future can use the principles in Early Retirement Extreme to make their future more secure.
