Bicycling Science

David Gordon Wilson

Bicycling Science David Gordon Wilson

The bicycle is almost unique among human-powered machines in that it uses human muscles in a near-optimum way. This new edition of the bible of bicycle builders and bicyclists provides just about everything you could want to know about the history of bicycles, how human beings propel them, what makes them go faster, and what keeps them from going even faster. The scientific and engineering information is of interest not only to designers and builders of bicycles and other human-powered vehicles but also to competitive cyclists, bicycle commuters, and recreational cyclists.

The third edition begins with a brief history of bicycles and bicycling that demolishes many widespread myths. This edition includes information on recent experiments and achievements in human-powered transportation, including the "ultimate human-powered vehicle," in which a supine rider in a streamlined enclosure steers by looking at a television screen connected to a small camera in the nose, reaching speeds of around 80 miles per hour. It contains completely new chapters on aerodynamics, unusual human-powered machines for use on land and in water and air, human physiology, and the future of bicycling. This edition also provides updated information on rolling drag, transmission of power from rider to wheels, braking, heat management, steering and stability, power and speed, and materials. It contains many new illustrations.

From reader reviews:

Joseph Cole:

As people who live in the particular modest era should be update about what going on or facts even knowledge to make these people keep up with the era that is certainly always change and progress. Some of you maybe will probably update themselves by examining books. It is a good choice in your case but the problems coming to anyone is you don't know which one you should start with. This **Bicycling Science** is our recommendation to make you keep up with the world. Why, because book serves what you want and wish in this era.

Angela Joseph:

Reading can called head hangout, why? Because while you are reading a book particularly book entitled **Bicycling Science** the mind will drift away trough every dimension, wandering in each aspect that maybe unfamiliar for but surely might be your mind friends. Imaging each word written in a guide then become one contact form conclusion and explanation which maybe you never get just before. The **Bicycling Science** giving you another experience more than blown away your brain but also giving you useful facts for your better life in this particular era. So now let us show you the relaxing pattern here is your body and mind is going to be pleased when you are finished reading through it, like winning a. Do you want to try this extraordinary spending spare time activity?

Delaine Valencia:

Bicycling Science can be one of your nice books that are good idea. Most of us recommend that straight away because this book has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining but still delivering the information. The copy writer giving his/her effort to get every word into enjoyment arrangement in writing **Bicycling Science** however doesn't forget the main stage, giving the reader the hottest in addition to based confirm resource information that maybe you can be considered one of it. This great information can easily drawn you into fresh stage of crucial imagining.

Gertrude Ponder:

Is it a person who having spare time subsequently spend it whole day simply by watching television programs or just laying on the bed? Do you need something totally new? This **Bicycling Science** can be the solution, oh how comes? A book you know. You are thus out of date, spending your time by reading in this completely new era is common not a nerd activity. So what these publications have than the others?
