EXPERTddx: Musculoskeletal: Published by Amirsys® (EXPERTddx (TM)) B. J. Manaster MD PhD FACR, Catherine C. Roberts MD, Carol L. Andrews MD, Cheryl A. Petersilge MD

Part of the **EXPERTddx** series, this unique print-and-electronic reference will guide radiologists toward logical, on-target differential diagnoses based on key imaging findings and clinical information. The book presents the most useful differential diagnoses for the musculoskeletal system, grouped into three categories: anatomy based, image based (radiograph/CT, MR, ultrasound, nuclear medicine), and clinically based. Each differential diagnosis includes at least eight clear, sharp, succinctly annotated images; a list of diagnostic possibilities sorted as common, less common, and rare but important; and brief, bulleted text offering helpful diagnostic clues.

The companion online Amirsys e-Book Advantage provides additional annotated images.
