Helps readers understand their own learning and apply the core concepts and principles of educational psychology to themselves as learners and in classrooms as teachers. *Educational Psychology: Developing Learners* is known for its exceptionally clear and engaging writing, its in-depth focus on learning, and its extensive concrete applications. The text's unique approach helps students understand concepts by examining their own learning and then showing them how to apply these concepts as teachers. The text moves seamlessly between theory and applications, features the most extensive and integrated coverage of diversity, contexts of learning, and neuropsychology and brain development. It also includes innumerable concrete examples and artifacts to help readers connect educational psychology to real children and classrooms.

Personalize learning with MyEducationLab[®]

MyEducationLab is an online homework, tutorial, and assessment program designed to work with the text to engage students and improve results. Within its structured environment, students see key concepts demonstrated through real classroom video footage, practice what they learn, test their understanding, and receive feedback to guide their learning and ensure they master key learning outcomes.
