## **Literacy with an Attitude** Patrick J. Finn

This book is for teachers, parents, and community organizers who are on the side of working-class children. It's about the resistance of working class children to the kind of education they typically receive, education designed to make them useful workers and obedient citizens. It's about working-class habits of communication and ways of using language that interfere with schooling. It's about a new brand of teachers, followers of Brazilian educator Paulo Freire who are developing effective methods for teaching powerful literacy in American working-class classrooms. It's about teacher networks where teachers devoted to equity and justice find mutual support. And it's about community organizers who are bringing working-class parents together around education issues and helping them mount effective demands for powerful literacy for their children.
