After discovering he was able to teleport, young David Sanchez was further shocked to learn that his mother wasn't his real mother. Abandoned at birth, David had been found and then adopted by the woman whom he called his mother. Even more startling was the discovery of a second person, a classmate of his, who also had extraordinary abilities. Since both David and Rickie Conners were adopted when they were mere infants, the questions become: Who were their real parents? Are they even human? Are there others like them? And finally, why are the people closest to David being made to forget what he is? And is he next?
