The Atlantis Blueprint: Unlocking the Ancient Mysteries of a Long-Lost Civilization Colin Wilson, Rand Flem-Ath

CAN ARCHAEOLOGY'S GREATEST MYSTERIES BE TRACED BACK TO THE LOST CIVILIZATION OF ATLANTIS?

The Great Pyramid. Stonehenge. Machu Picchu. For centuries, these and other sacred sites have attracted pilgrims, scholars, and adventurers drawn by the possibility that their true spiritual and technological secrets remain hidden. Who could have built these elaborate monuments? How did they do it? And what were their incomprehensible efforts and sacrifices designed to accomplish?

Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern--the ancient work of an advanced civilization whose warnings of planetary cataclysm now reverberate across one hundred millennia. Here is startling evidence of an intelligent society dating back as much as 100,000 years--one that sailed the oceans of the world, building monuments to preserve and communicate its remarkable wisdom.

The Atlantis Blueprint is the authors' term for a complex network of connections between these sacred sites that trace back to Atlantis: a sophisticated maritime society that charted the globe from its home base in Antarctica...until it was obliterated by devastating global changes it anticipated but could not escape. Opening up a Pandora's box of ancient mysteries, lost worlds, and millennial riddles, **The Atlantis Blueprint** is a story as controversial, fascinating, dangerous--and inspiring--as any ever told.
