Batman DarKnight Stephen Wise, Lee Shapiro

Bruce Wayne has retired Batman and send Dick Grayson off to college. Dick challenges his psychology professor, Dr. Jonathan Crane, in his theories about fear. Crane has been using inmates at Arkham Asylum as test subjects for a new chemical that induces terror--and during a Halloween dance uses it on Dick, who has a psychotic episode and is admitted to Arkham under Crane's care. Meanwhile, Crane has retaliated against a colleague who is up for the same grant. Dr. Kirk Langstrom inadvertently is injected with a genetic engineering formula, which transforms him into a half human, half bat creature. As the city is besieged with sightings of Man-bat, Batman must return, only to discover that the former Dr. Langstrom is now a creature struggling with its humanity and bent on vengeance against Crane. Dick Grayson also struggles with the psychological damage Crane has inflicted upon him, and must rise to the challenge of being Robin once again at Batman's side as Crane assumes his Scarecrow personal and seeks out to hurt those who attempt to bring about his downfall.
