Stocker and Dehner's Pediatric Pathology

Effectively diagnose the complete range of pediatric pathologies, from neonatal disorders through adolescence. Intended for a broad audience including general and pediatric pathologists, pediatricians, surgeons, oncologists, and other pediatric subspecialties, *Stocker & Dehner's Pediatric Pathology* is widely recognized as the definitive go-to comprehensive clinical reference in the unique subspecialty of pediatric pathology – which, unlike other subspecialties, is defined by an age group rather than an organ system or process.
