Recounted here are nine of the earliest wars involving jet aircraft. From the Korean War and beyond, it comprises a wealth of gripping insight. Many of the jet-to-jet dogfights that spanned these jet-powered wars are enlivened to thrilling effect, including those engaged in during the two Indo-Pak Wars of 1965 and 1971.

Operation 'Musketeer' (1956), mounted when RAF and French Air Force bombers and fighter-bombers attacked airfields and other targets in Egypt (after President Nasser had nationalized the Suez Canal), is also covered in this gripping narrative. The Falklands Campaign is also covered, as is the Vietnam War.

In another chapter, QRA operations around the British Isles are put under the microscope as RAF Phantoms, Lightnings, Tornados and Typhoon Eurofighters on Quick Reaction Alert are described, patrolling international air space and maintaining a constant vigil as Soviet 'Bears' continued to test NATO defenses.

All in all, this is a compelling, well-researched and highly informative study of a particularly dynamic era in aviation history.
