Critical Care Medicine at a Glance Richard M. Leach, Jeremy P. T. Ward, J. T. Sylvester

"Critical Care Medicine At a Glance" provides an accessibly concise introduction to critical care medicine. It covers the core knowledge required by students and junior doctors for clinical attachments in critical and intensive care unit setting. The book follows the easy-to-use At a Glance format of double page spreads composed of clear memorable diagrams that support accompanying key facts and essential information. The first part introduces key themes and covers general information, including looking at the management of the critically ill patient, oxygen transport and respiratory management, arterial blood gases and acid base balance and end of life issues. The correct use and dosage of drugs and what specialist equipment is necessary are also included. The second part is divided by systems, and examines critical illnesses in detail, their symptoms and causes and how to deal with every aspect in a critical care situation. Part three looks at Surgical aspects covering topics from Trauma, Head injury, Chest trauma, Acute Abdominal Emergencies, Obstetric Emergencies, Burns, Toxic Inhalation and Electrical injuries. The book provides very much a hands-on approach to dealing with life-or death situations, providing examples and guidance on how to work effectively in a critical or intensive care unit. "Critical Care Medicine At a Glance" will be an essential resource for students, junior doctors, and specialist nurses. It is ideal for clinical attachments and for those wishing to continue in critical care training. This book is designed to be an invaluable life-saving reference text and will fit even the tightest budget! Pre-publication review quote 'A good introductory text to those wishing to continue in critical care training the PRHO would find it useful to provide a quick summary of the likely management of the critically ill on his/her inpatient list' - Senior House Officer, John Radcliffe Hospital, Oxford.

Christen Arnold:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or all their friends. Usually they undertaking activity like watching television, planning to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Could be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to test look for book, may be the publication untitled Critical Care Medicine at a Glance can be very good book to read. May be it might be best activity to you.

Danielle Hawkins:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just little students that has reading's spirit or real their passion. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Critical Care Medicine at a Glance can make you experience more

interested to read.
